Technology Goals

To enable all Vicksburg Warren School District students and employees with the ability to meet and exceed the standards put forth by the VWSD school board by supporting the efficient use of technology. The support of the district's technology is moved forward in the following ways.

- By building and maintaining a district network of size and capability to allow continuous use of internet resources for education.
- Maintaining the district's presence and use of Google Apps for Education and the services that come with it.
- Fostering the use of devices to access the internet through the purchasing and maintenance of such devices that take advantage of GAFE.
- Improve communication and widen our sense of community by expanding the way teachers, students, and parents are able to interact with each other.
- Provide greater access to digital content in a variety of formats and modes.

Device Usage

VWSD may provide users with devices or other devices to promote learning outside of the classroom. Users whether district employees or students, should abide by the same Acceptable Use Policy when using school devices off the school network as on the school network. Users are expected to treat the devices with extreme care and caution; these are expensive devices that the District is entrusting to users' care. Users should immediately report any loss, damage, or malfunction to IT staff. Users will be financially accountable for any damage resulting from negligence or misuse. Use of District-issued devices off the District network can be monitored.

Examples of Responsible Use

I will:

- Use school technologies for school-related activities.
- Follow the same guidelines for respectful, responsible behavior online that I am expected to follow offline.
- Treat school resources carefully and alert staff if there is any problem with their operation.
- Encourage positive, constructive discussion if allowed to use communicative or collaborative technologies.
- Alert a teacher, administrator, or other staff member if I see threatening, inappropriate, or harmful content (images, messages, posts) online.
- Use District technologies at appropriate times, in approved places, for educational pursuits.

This is not intended to be an exhaustive list. Users should use their own good judgment when using District technologies. You can also visit www.common sense media.org for further information.
